Accel Research Sites: Phase I Services

PATIENT ACCESS

- Expertise in both healthy normal volunteer and patient populations—one site for all your Phase I needs.
- Unprecedented access to community specialist providers in every major therapeutic area with embedded coordinators and an RN recruitment specialist for patient identification and eligibility assessment.
- Over 60,000 active profiles in a diverse patient database with complete in-house multimodal recruitment services.
- Subject engagement strategies for a collaborative and lasting partnership for subject retention.
- Our network of trusted investigators, high-performing sites and deep patient databases along with a myriad of customized services help accelerate enrollment, sustain retention and ensure studies stay within the scheduled timelines.

WORD-CLASS EXPERTISE

- Board-certified medical director with over 20 years of research experience and CPI® certification.
- Full-time staffing of nurse coordinators, CCRC paramedics, pharmacists, and nutritional services.
- Project Managers ensure consistent high-level study oversight from early study planning stages through study completion.
- Full-time Data Manager to ensure timely data entry and query resolution.
- 24-hour Advanced Cardiovascular Life Support (ACLS) certified medical staff.
- Over 2,500 trials conducted, including clinical pharmacology, exposure-response (PK/PD), and biopharmaceutics.

WELL-EQUIPPED FACILITY

- 16,000 sq. ft. facility with 62-bed early phase unit with multiple configurations including caregiver cohabitation, 15 exam/procedure rooms, infusion suite.
- All the equipment needed to conduct your study procedures including BSL-II laboratory with laminar flow hood and DEA II-V licensed pharmacy.
- Conveniently located near three international airports and adjacent to a major regional hospital.

UNMATCHED VALUE

- Top-tier experience and capability with fair, transparent pricing.
- Priority status for your project with nimble operations and no bureaucracy.
- Direct access to senior leadership, 24/7/365.
- Single point of contact with project management of all study conduct.
- From start to close, our clinical operations team works with you to ensure your study is fully and managed to provide the highest data integrity.
